

TOMORROW MORNING,  
ELAINE WILL LEARN  
SHE HAS BREAST CANCER.  
But in a few months, she'll be back to  
playing hide-and-seek with her grandkids.

**With one of the nation's top 50 cancer programs, no one is better equipped to help people with cancer thrive once again.**

At Inova, we see more than 5,000 cancer patients each year, more than any other hospital in the D.C. region. We feature the latest radiation and interventional oncology treatments, and minimally invasive techniques for treating many types of cancer. Which is why when Elaine received her

diagnosis, she was able to get the treatment she needed fast. At Inova, this is our commitment to you: the care will be world-class. And it will be close by. Another way we express our commitment? Helping our patients get healthy so they can get back to living their lives. And then some.
